

Oct. 2, 1944

Mr. & Mrs. Manley:

How are things with you all these days? fine I hope. Things are about the same with me still soldering as hard as ever. I saw where the Grog won the series from the Barons, I thought they would win any way. I see Welmaker is out of the service and he pitched some fine ball, he is really a lucky fellow. How do you think the world series is coming, those Browns really played some fine ball. Of course the Yankees got a bad break due to the rain and they just could pull

the grade. The Chicago American Giants  
 and the Buckeyes played in Dallas Texas  
 yesterday (Sun) but I did not have  
 chance to see them. I saw a lot of the  
 American League teams play around here  
 this summer, I thought I was going to  
 see the Eagles before the season was  
 over. I was picked to play on an all Army  
 team in Dallas this summer, we played  
 the Navy, they beat us 7-5. I played against  
 Parks while he was here on this post, I  
 pitched four innings against them and  
 did not give up but one hit, I struck  
 him out with the bases loaded and did  
 I have some fun off of him. We played  
 them under the lights in Waco, Texas  
 (over)

and really had a good crowd. There were no good teams around here only the Army and we had some good games. The only team that beat us twice is the team that Parks was playing on. Do you think you are going to have a team next year, I hope the war will be over by then. We have been out on maneuvers for the past month and we are still here, we are sleeping out in the woods, I hope they will move us in camp before the cold weather sets in. My weight is around 185 lbs and I really feel fine, only will be glad when we leave Texas ha, ha, ha. I must come to a close, Oh yes I received the box of candy and it was really fine, I am going to eat some tonight. Drop me a few lines. Print
